

These "Boller" Features Sell Wringers for You

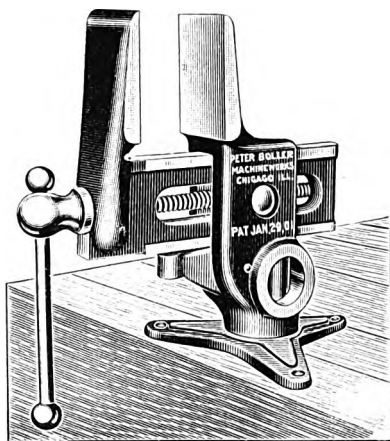

PROSPECTIVE buyers are quick to see the advantages of the many exclusive features offered by BOLLER MOP WRINGERS. For instance, (1) Boller wringers have extra large openings for inserting mops and extra long foot pressure leverage for drying them. (2) Boller wringers have one-piece steel guards that prevent water slopping and eliminate catching of mops at end of rollers. (3) In Boller wringers the weight is carried by the steel frame and not by

the pail, thus preventing over-turning. (4) All pails bolted to frames above the water line. There are many other worthwhile Boller features, too.

BOLLER MOP WRINGERS have been favorably known and broadly sold for more than 30 years. Tested and approved by the Good Housekeeping Institute. It pays to sell the best—they sell easier. Write for catalog and prices.

BOLLER CARPENTER VISE

Hardware dealers everywhere are making substantial profits selling Boller Carpenter Vises. These vises are different! Built especially for woodworkers. Their

special features appeal to the handy man and to everybody who uses tools. Boller Carpenter Vises can be used vertically or horizontally. Slip on or off the base in a moment. Swing free on the base and tighten automatically. Put a Boller Carpenter Vise on

your counter. It will sell dozens for you. Advertised monthly in The Carpenter with 400,000 circulation. Sells for \$7.00. Write for literature and attractive discounts.
